

EDUCATION

Year	Degree/Certificate	Institute	CGPA/Percentage
2023 – 2027	B.E. Computer Science & Engineering	Thapar Institute of Engineering & Technology, Patiala	8.41 CGPA
2021 – 2023	CBSE (XII) – PCM	GMSSS, Sector 16, Chandigarh	91%
2019 – 2021	CBSE (X)	Manav Mangal High School, Chandigarh (Sector 21)	92.6%

PROJECTS

- CloudShare

Spring Boot, Spring Cloud Gateway, PostgreSQL, Redis, Cloudinary, React.js

GitHub | Live | Swagger

– Developed a full-stack, microservices-based cloud storage platform with independent authentication and file management services; implemented secure API auth/authorization using JWT and centralized routing via Spring Cloud Gateway.

– Integrated Redis for caching and Cloudinary for scalable file storage, preserved folder hierarchy with fast search, documented REST APIs with Swagger, and decomposed the monolith into modular microservices.
- CampusRide

Spring Boot, PostgreSQL, Spring Data JPA, React.js, Redis

GitHub | Live | Swagger

– Developed a campus-focused cab booking solution connecting students and drivers under admin supervision; implemented secure authentication and authorization using Spring Security and JWT.

– Designed and optimized backend APIs with structured exception handling and DTO-driven responses, integrated PostgreSQL, and achieved an average API response time of 120ms during local testing.
- SkillBridge

Spring Boot, WebSocket API, MongoDB, React.js

GitHub | Live | Swagger

– Created a barter-based learning platform enabling users to exchange skills and collaborate; built scalable backend services for authentication, profile management, and skill discovery.

– Designed workflows for barter requests and approvals, implemented real-time one-to-one messaging via WebSocket, developed admin features, and documented APIs with Swagger.
- EventSphere

Spring Boot, PostgreSQL, Spring Data JPA, React.js, Redis

GitHub | Live | Swagger

– Built a full-stack event management and ticket booking platform with secure JWT-based authentication and role-based access control for users and organizers.

– Designed booking workflows, payment validation, and email notification services; developed scalable DTO-based REST APIs with Redis caching for performance optimization.

TECHNICAL SKILLS

- Programming Languages:

C++, JavaScript, Java, Python, SQL
- Frontend Technologies:

React.js, HTML5, CSS3, Bootstrap, JSX
- Backend Technologies:

Node.js, Express.js, Mongoose, Spring Boot, Spring MVC, Hibernate, JDBC, Servlet, JSP
- Databases:

MongoDB, MySQL, Firebase
- Tools & Platforms:

VS Code, IntelliJ IDEA, Eclipse, Git, GitHub, Maven, Postman, Vercel, Render, AWS, Figma, Canva

KEY COURSES TAKEN

- Relevant Coursework:

Data Structures & Algorithms, Object Oriented Programming, Computer Networks, Database Management Systems, Machine Learning (exploring)

POSITIONS OF RESPONSIBILITY

- Head Boy,Manav Mangal High School

– Elected as the senior student representative; organized school-wide events, fostered unity among students, and served as the key liaison between students and faculty.
- Group Representative (3P1),TIET

– Acted as liaison between students and instructors for Batch 3P1 (Elective), coordinating schedules and resolving academic concerns efficiently.

DSA & CODING PROFILE

- Solved 400+ Data Structures & Algorithms problems across LeetCode, Code360, and GeeksforGeeks.

Strong command over Arrays, Trees, Graphs, Dynamic Programming, Recursion, and Greedy algorithms.

Proficient in Binary Search, Two Pointers, Sliding Window, and Hashing techniques; consistent practice with active streaks and badges.
